---

The California Department of Resources Recycling and Recovery (CalRecycle), acting as the solid waste Enforcement Agency (EA) for San Luis Obispo County, received an application for a revised Solid Waste Facility Permit (SWFP) for the Chicago Grade Landfill on October 14, 2016. The application was accepted as complete and correct on November 10, 2016. This public notice was prepared pursuant to Title 27, California Code of Regulations (27 CCR), Section 21660.4.

#### Project Description

The Chicago Grade Landfill is an existing facility currently operating under a SWFP issued on August 17, 2007. The EA's preliminary determination requires the operator to revise the SWFP. The proposed changes in the design and operation include the following:

- Increase the disposal footprint from 76.4 to 77.07 acres.
- Increase the maximum elevation of Modules 1-4 from 1,360 to 1,386 mean sea level.
- Update the SWFP to reflect the design capacity rather than the remaining capacity, including the additional capacity from the increase in the disposal footprint and elevation.
- Update the estimated closure date from 2042 to 2039.
- Incorporate the updated Joint Technical Document.

#### Public Meeting

The EA is required to conduct a public information meeting pursuant to 27 CCR 21660.2 to provide information to the public and receive comments on the EA's proposed action to revise the SWFP. The EA is allowed to substitute a previously held public meeting on the same project if the meeting took place within one year prior to the date of the complete and correct determination by the EA. A public meeting was held by the San Luis Obispo County Planning Commission on November 10, 2016 at 9:00 a.m. at the San Luis Obispo County Board of Supervisors Chambers to receive comments and approve an Amendment to the Conditional Use Permit and an Addendum to the 2006 Final Environmental Impact Report. The EA was recognized by the presider of the public hearing and was available to answer

questions. This public meeting meets the requirements of 27 CCR 21660.4 for substitute meetings. The decision to issue or not to issue the revised SWFP must be made by the EA within 120 days of the date the application was deemed complete and correct.

For Additional Information

To review a copy of the application and supporting documents, please contact Mr. Snider.

Comments

If you would like to comment on this project, you may send your written comments to the Mr. Snider at his contact information provided above.

Appeals Process

For information on the appeals process pursuant to Public Resources Code §44307 to challenge the EA's issuance or denial of the permit, please contact Mr. Snider.
